

Tuesday 1 September 2020

Notice Under Section 708A(5)(e) of the Corporations Act

Kogi Iron Limited (ASX: KFE – the “Company” or “Kogi”) issued and allotted 371,584 fully paid ordinary shares in the capital of the Company (“Shares”) on 26 August 2020, in lieu of payment for professional services provided to the Company by consultants. The applicable Cleansing Notice is provided below.

Secondary Trading Exemption:

The Corporations Act 2001 (Cth) (the “Act”) restricts the on-sale of securities issued without disclosure, unless the sale is exempt under section 708 or 708A of the Act. By the Company giving this notice, a sale of the Shares noted above will fall within the exemption in section 708A(5) of the Act.

The Company gives notice pursuant to section 708(A)(5)(e) of the Act that:

- a) The Company issued the Shares without disclosure to investors under Part 6D.2 of the Act;
- b) As at the date of this notice the Company has complied with the provisions of Chapter 2M of the Act as they apply to the Company, and section 674 of the Act; and
- c) As at the date of this notice there is no information to be disclosed which is excluded information (as defined in section 708A(7) of the Corporations Act) that is reasonable for investors and their professional advisers to expect to find in a disclosure document.

Approved for release by the Kogi Board

---	--	---

Nigeria has substantial domestic demand for steel products, which is currently met largely through imports of scrap steel raw materials. The Agbaja project, located on the Agbaja plateau approximately 15km northwest of Lokoja city in Kogi State and 200km southwest of Abuja, the capital city of Nigeria, opens the opportunity for domestic production of steel.

The Company holds a land position which covers a large part of the Agbaja Plateau. The Agbaja Plateau hosts an extensive, shallow, flat-lying channel iron deposit with an Indicated and Inferred Mineral Resource of 586 million tonnes with an in-situ iron grade of 41.3% reported in accordance with the JORC Code (2012). This mineral resource covers approximately 20% of the prospective plateau area within ML24606 and ML24607.
